

ABOUT ME

Professional student in Mechatronics Engineering with a lot of motivation and desire to work in the assigned area and obtain new knowledge. I have experience in programming and mechatronic design that have led me to develop new skills.

I seek work with a personal and professional growth opportunity.

Mechatronics Engineer

PROFESSIONAL EXPERIENCE

ATOM | Programmer

Octubre 2019 / San Luis Potosí

- Augmented Reality programming
- App Development.
- Digital Courses Development

Continental/ Contitech | Mechatronic Design

Agosto 2017 – diciembre 2017 / San Luis Potosí

- Use of software (SolidWorks) to design a new extrusion dice.
- Use of software (SolidWorks) for the analysis of the behavior of the material under different tests (temperature, tension, heat)
- Use of measuring devices.

OTHER EXPERIENCE

RETOMEX | Programming Courses

agosto 2018 - diciembre 2018

- Collaborate with other professors.
- Organize the courses and create new content.
- Student support.

WINGS AIRFORCE | Waiter

Junio 2018 – Sep. 2018

- Customer service.
- Retaining information
- Responsibility and Organize

ACADEMIC BACKGROUND

Mechatronic Engineer / Tecnológico de Monterrey

2014-2019 / San Luis Potosí, S.L.P

Bachelor's Degree in Mechatronic Engineering

Business Certificate Program / VGC

2019 / Vancouver, Canadá

- Global English Certificate
- Human Resources Management in English
- Business in English

LANGUAGES

English : Advanced
B2 -Cambridge

German : Beginner
A2 - CCA
